

**Alderon** **ECO**®

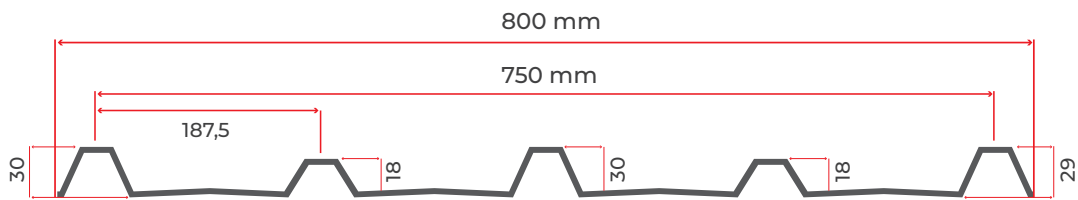

INNOVATIVE BUILDING MATERIALS

---

**ATAP uPVC BERKUALITAS**

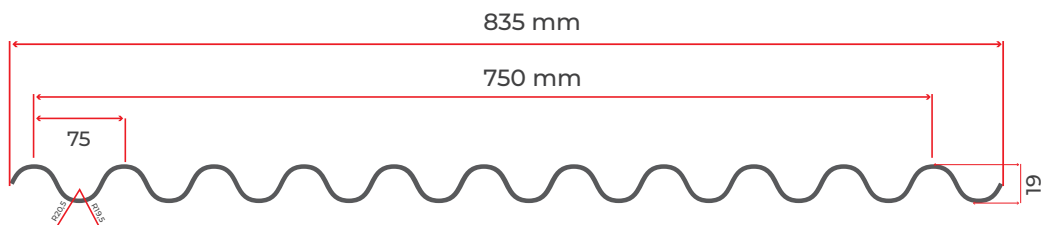

Alderon ECO adalah atap uPVC yang di desain untuk memenuhi kebutuhan atap yang dapat bertahan lama dengan harga terjangkau.

## Alderon Eco Triger

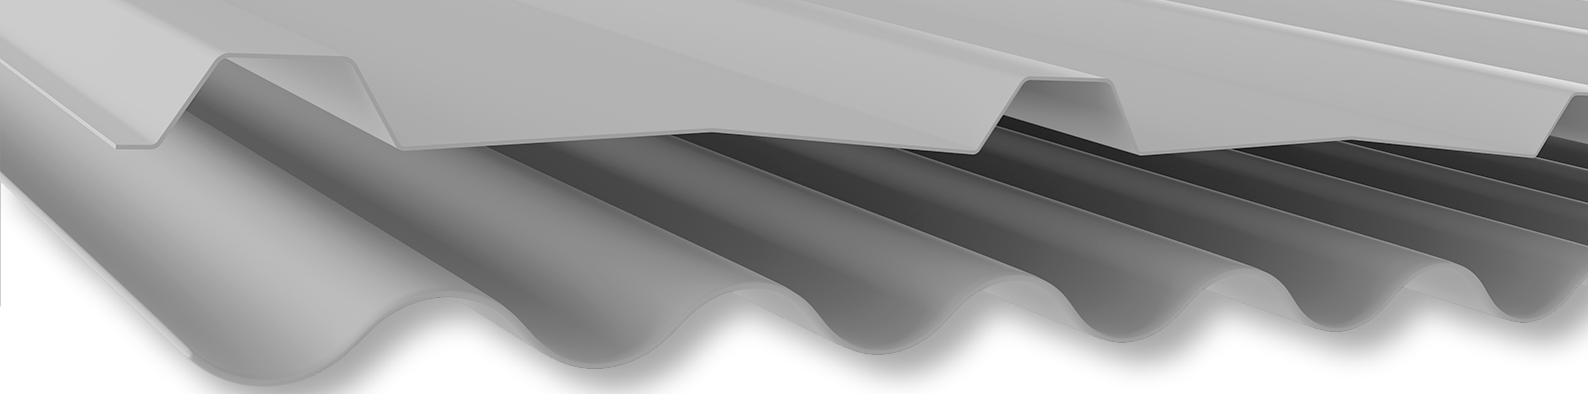

Product	Thickness	Length	Full Width	Cover Width	Pitch Height	Weight	Color
Alderon Eco Triger	1 mm	1,8 - 2,1 - 2,4 3 - 4 M	800 mm	750 mm	30	1,8 kg/lm	Silver Millenium

## Alderon Eco Sakura

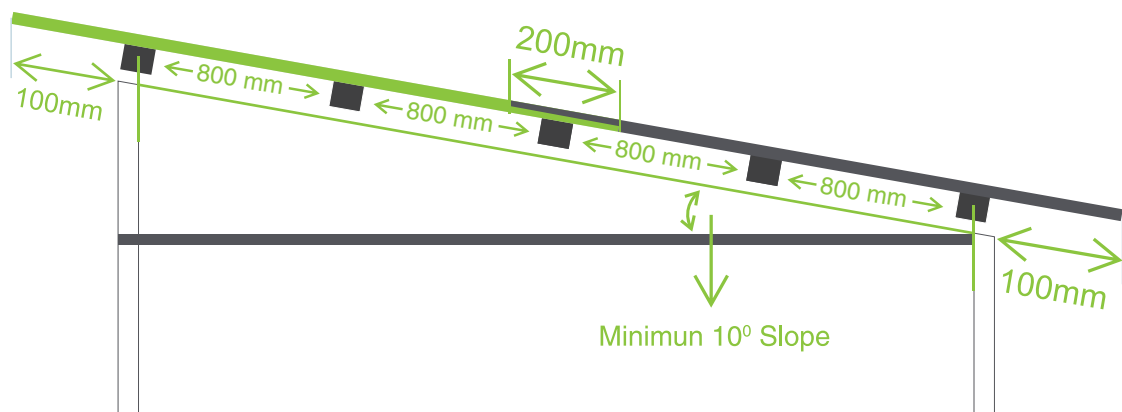

Product	Thickness	Length	Full Width	Cover Width	Pitch Height	Weight	Color
Alderon Eco Sakura	1 mm	1,8 - 2,1 - 2,4 3 - 4 M	835 mm	750 mm	19 mm	1,9 kg/lm	Silver Millenium

## ***Installation Guide***

Panduan Instalasi

**1. In order for the rainwater to flow down nicely, the recommended roof slope angle is 10° minimum.**

Agar air hujan mengalir ke bawah dengan baik, sudut kemiringan atap yang dianjurkan adalah 10° minimum.

**2. The maximum distance for the purlin is 800 mm, while the length of the long side connection is 200 mm, for the overhang is 100 mm.**

Jarak maksimum purlin adalah 800 mm, sedangkan panjang jarak sambungan sisi panjang adalah 200 mm, untuk overhang adalah 100 mm.

**3. Install Alderon Eco with recommended overlap and weather seal.**

Pasang Alderon Eco dengan overlap yang direkomendasikan dan seal tahan cuaca.

## ***Recommended Overlap***

**Weather Seal Sakura 1 1/2 Gelombang**

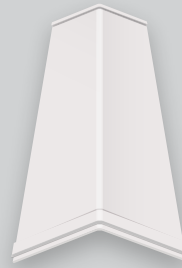

**Weather Seal Triger 1 Gelombang**

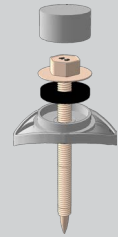

- 1** | **Economical Prices**  
*Harga yang ekonomis*
- 2** | **Light Weight**  
*Ringan*
- 3** | **The roof is heat-resistant and not noisy**  
*Atap anti panas dan tidak berisik*
- 4** | **Corrosion Resistance**  
*Tidak berkarat*
- 5** | **Not propagating fire**  
*Tidak rambat api*
- 6** | **Easy to fabricate, easy to cut and easy to install with standard equipment.**  
*Mudah difabrikasi, mudah dipotong dan mudah dipasang dengan peralatan standar.*
- 7** | **Alderon ECO is an economical choice that lasts against hazardous chemical elements.**  
*Alderon ECO pilihan ekonomis yang tahan terhadap unsur-unsur kimia berbahaya.*
